OPIS 2010 RFS-2/RINS White Paper

This paper will provide a basic guide and roadmap to help downstream petroleum supply professionals navigate the 2010 changes that RFS-2/RINS is producing. OPIS is planning on having this finalized and up on our white paper website by early June.

Renewable Fuels Supply Americas Directory – publishes Spring and Fall 2010

The directory offers RINS information. An ad buy in the directory includes the full directory on CD-Rom. Your ad will reach the thousands of downstream petroleum industry professionals – like oil refiners, traders, marketers, jobbers, brokers, truckstops, fleets, terminals, pipeline companies, airlines - that buy this directory – and you can then use the CD-Rom to market your products to 1,500 + Ethanol and Biodiesel Supply Professionals that are listed in the directory. As an extra bonus, the CD-Rom includes 8,500 + downstream petroleum supply professionals that are listed in the Petroleum Supply Americas directory.
