

# Pipelines + Terminals

OPIS delivers fuel price discovery, reliable data and critical news for more profitable transactions.

## Challenges

- Embedding pricing data into back-end systems to reconcile invoices
- Gathering market intelligence for rack transactions
- Knowing which shippers are experiencing financial stress

## Goals

- Determine a cost basis or benchmark for transactions on products such as trans mix
- Provide customers with a cost basis or benchmark when reselling at the rack
- Reduce accounting costs and personnel hours related to purchasing reconciliation

## OPIS Solutions

The definitive U.S. benchmark for rack pricing

---

Rack price reports and news for all markets

---

Custom feeds of rack pricing data integrated into back-office systems

---

Industry-standard index for U.S. West Coast spot prices

## Clients Include

- BP
- Buckeye Partners
- Colonial Pipeline
