

Traders

OPIS provides pricing and analysis of the fuel market to improve competitiveness.

Challenges

- Maintaining market position during spot price volatility
- Managing supply for any holdings down the supply chain
- Maximizing intra-regional and worldwide trade opportunities

Goals

- Buy low, sell high
- Track arbitrage opportunities and monitor global price trends
- Anticipate price trends and fuel-spec changes and monitor infrastructure news

OPIS Solutions

Undisputed spot price benchmark for U.S. West Coast gasoline, diesel and jet fuel as well as U.S. NGLs, RINs and ethanol

Spot price reports providing second-look pricing and analysis in global markets for alternatives in price disputes

OPIS Spot Ticker: minute-by-minute evaluations of spot refined products as they trade in key refined products and LPG markets worldwide

Clients Include

- Glencore
- Gunvor Group
- Koch Industries
- Trafigura
- Vitol

“OPIS spot market coverage has a consistency that is necessary for the trading community. OPIS methodology is sound and reflects market values.”

– Andy Hausig, President, Petro-Diamond, Inc.
