OPIS LP Gas News Alerts

Receive market-moving news essential to the buying and selling of natural gas liquids and related products

Learn key developments instantly via email on desktop or mobile device – or get a daily digest delivered when you want it.

Market Challenge
Professionals who buy and sell LPG and NGL products need market-focused news on infrastructure problems, supply/demand imbalances, producer outages/turnarounds and more. There are many sources of this intelligence – some that are very expensive and most that don’t target the North American market. It’s easy to become overwhelmed by irrelevant information.

How We Help
At an affordable price, OPIS LP Gas News Alerts spotlight the most significant market happenings. Be among the first to know about breaking news that affects Mont Belvieu, Conway, Hattiesburg, Sarnia, Ontario, Edmonton, Alberta and other key hubs.

Benefits
— Estimate demand for LPG imports based on in-depth cargo trend coverage
— Understand how natural gas production influences NGL pricing and supply
— Track unit outages altering production
— Track the expanding LNG market
— See the implications of LPG movements on petrochemical markets
