- NGL + Petchem Companies
- Marketers
- Traders
- Energy Utilities
- Refiners
- Financial Institutions
- Natural Gas Producers

### COMMODITIES

- LPG/NGL
- Natural Gas

### MARKET SEGMENT

- Spot

### Market Challenge

Natural gas markets change quickly and unexpectedly. Lagging behind these changes by a day or even an hour can be costly. There's a lot of related information available, but timeliness, accuracy and regional focus are always concerns.

### How We Help

OPIS PointLogic's Markets Module lets you drill into daily supply and demand fundamentals, price survey and bidweek prices, net storage inventories by facility and import/export flows for hubs in the U.S. and Canada. With fingertip-access to this data, decision-making is faster and easier.

### Benefits

- See an overview of major supply & demand sectors in the U.S.
- Use supply & demand graphs to view Season-To-Date, Month-To-Date or YoY comparisons.
- Discover import and export flows from the lower 48 states.
- Display spot/cash prices in wholesale markets for specific locations and time periods.
- Know baseload transactions and measure day-ahead gas flows.
