

# OPIS News Overview

Discover better, faster and more accurate solutions to get oil market news.

## Introducing OPIS News Alerts and Newsletters:

Stay ahead in the rapidly changing oil markets with real-time news you can trust. While online oil news can be overwhelming and sometimes inaccurate, OPIS delivers the facts, contextual information, and reliable market analysis. As a leader in the industry with unique market positioning and access to valuable sources, we often break news before others, providing unmatched perspectives to our customers.

- Our **Intraday News Alerts** deliver crucial updates on refined products, LPGs, and biofuels markets in real-time via email.
- The virtually real-time **Refinery Maintenance Report** keeps you informed about unexpected and planned refinery outages, helping you anticipate their potential impact on supplies and prices.

Experience insightful analysis with our Weekly Newsletters, covering fuel and oil industry news, along with expert commentary.

Discover our range of newsletters that go beyond simple reporting to provide valuable perspectives:

**OPIS Newsletter:** Your comprehensive source for downstream market news, encompassing the spot, rack, and retail markets. It includes pricing information for gasoline, diesel, renewable fuels, LPG/NGL, jet fuel, crude, propane, feedstocks, resid, and kerosene.

**Ethanol & Biodiesel Information Service:** The ultimate resource for daily and weekly pricing, real-time news, and expert analysis in renewable fuels markets.

**Oil Express:** A must-have for fuel retailers and c-store owners/managers, delivering real-time news, insightful “how-to’s,” exclusive tips, and critical market information.

**Retail Fuel Watch Newsletter:** Providing a weekly overview of retail brand performance, profits, and margins.

**Australian Oil Market Price Report:** Expanding OPIS coverage to oil price trends in the Asia-Pacific region.

### OPIS Intraday News Alerts

Enhance your business decisions by accessing critical industry news instantly. Say goodbye to sifting through an overwhelming amount of energy-related updates and focus only on the stories and events that truly impact your business.

With OPIS Intraday News Alerts, you'll be promptly informed about any refinery problems, pipeline outages, regulatory updates, or other events that influence downstream fuel distribution.

OPIS provides a variety of Intraday News Alerts which include:

- **General Refined Products Alerts:** Stay updated on market news, analysis, and pricing trends for various commodities like crude oil, gasoline, diesel, jet fuel, LPG, feedstocks, petrochemicals, and biofuels.
- **LP Gas Market Alerts:** Specifically focused on market analysis and pricing trends that impact LPG/NGLs.
- **Biofuels Alerts:** Gain insights into the ethanol, biodiesel, and renewable fuels markets, along with key influencers such as government programs and regulations.

### OPIS Refinery Maintenance Report

Receive immediate updates on refinery statuses, scheduled turnarounds, and maintenance activities, including details about unplanned outages. Our comprehensive list covers both planned and unforeseen U.S. refinery maintenance, empowering you to respond effectively to operational events impacting fuel production and market supplies.

Stay informed about planned turnarounds, unexpected issues, units returning to operation, and any events influencing refinery functions and output. OPIS meticulously gathers this critical but hard-to-find information in an affordable and invaluable report.

### OPIS Newsletter

Discover the precise downstream oil industry news and analysis essential to your needs, delivered every week. The OPIS Newsletter stands apart by sifting through the vast sea of fuel industry information, honing in on what truly matters - helping you grasp long-term market trends with clarity.

Stay informed with weekly updates covering refinery maintenance and turnarounds, mergers and acquisitions, dynamic shifts in crude oil economics, infrastructure developments, import and export prospects, supply and demand fluctuations, and much more. Our pricing insights encompass a wide range of products, including U.S. gasoline, diesel, ethanol, biodiesel, LP-gas, jet fuel, crude, propane, feedstocks, resid, and kerosene.

### Ethanol & Biodiesel Information Service

The OPIS Ethanol & Biodiesel Information Service provides a convenient way to receive updates on the ever-changing political landscape, regulatory developments, transportation hurdles, and other unpredictable factors. All the crucial insights are delivered directly to your inbox, ensuring you are always in the loop.

### Oil Express

Empower your fuel marketers, convenience store operators, and gas station managers with actionable real-world news and valuable tips. Oil Express, the nation's premier petroleum marketing news source for over 40 years, equips you with the tools to increase profits, expand your business, explore new profit centers, and steer clear of costly regulatory pitfalls.

As a completely independent and advertising-free publication, Oil Express is dedicated to delivering high-quality and timely news. With a weekly newsletter and real-time email news alerts, you'll have access to up-to-the-minute insights and analysis to make informed decisions and stay ahead in the industry.

### Retail Fuel Watch Newsletter

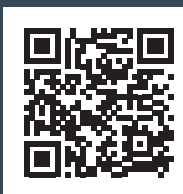

Assess your retail profit performance against key competitors in the U.S. and Canada effortlessly. The OPIS Retail Fuel Watch newsletter serves as your weekly scorecard, providing comprehensive insights into retail profit performance in over 300 regional markets. With user-friendly charts, graphs, and tables, you gain access to crucial retail fuel market intelligence right at your fingertips.

Stay informed with a weekly profitability index customised for the region of your interest, featuring profit margins for retail brands on a market-by-market basis. This invaluable resource enables you to make informed decisions and stay competitive in the retail fuel industry.

### Australian Oil Market Price Report

Stay up-to-date with fuel pricing and margin trends in the Australian market with ease. Receive the OPIS Australian Oil Market Price Report weekly via email, providing a comprehensive overview of landed spot, Singapore spot, TGP, and retail petrol and diesel prices and margins in Australia. Utilise this valuable resource to estimate the cost of refined products, monitor average petrol and diesel pricing, and gauge margins.

Armed with independent benchmarks from the OPIS Australian Oil Market Price Report, you gain the power to negotiate better petrol and diesel prices. The report offers in-depth insights into oil price trends in competitive markets both in Australia and globally, giving you a competitive advantage in your decision-making process.

Discover the benefits of our real-time and weekly news reports firsthand, and witness how they can empower your success in the industry.
