

From Mont Belvieu to the World, Navigate Global LPG Markets with Clarity

As LPG exports from Mont Belvieu surge, so does the need for accurate pricing that offers global buyers a competitive edge. The **OPIS Global LPG & Naphtha Report** enables buyers and sellers to compare import prices around the world to the price of product delivered from Mont Belvieu – and also gives visibility of FOB prices at the world’s main supply hubs. This report allows market participants to see where they stand in the global LPG trade and make smarter purchasing and selling decisions, saving time and eliminating the guesswork of calculating freight costs and delivered pricing.

Market Challenge

Mont Belvieu, the world’s most liquid export hub, has become a critical pricing benchmark that global participants cannot afford to ignore. Global buyers and sellers need transparent, reliable and comparable data to make informed decisions. Yet, no existing report provides Mont Belvieu benchmarks directly measured against other global options, on a delivered basis. Companies looking to purchase LPG from the U.S. or sell into international markets lack a clear view of Mont Belvieu-delivered products versus other sources.

How We Help

The OPIS Global LPG & Naphtha Report is the only publication that lets you compare import prices around the world to the price of product delivered from Mont Belvieu – and also gives you visibility of FOB prices at the world’s main supply hubs. It’s the first of its kind to integrate pricing, freight rates, port costs, and Panama Canal information into a single, comprehensive report – and the only source featuring the industry-standard OPIS Mont Belvieu benchmarks.

Benefits

- ✓ **Validate Assumptions:** Access a complete view of global LPG prices with integrated freight, delivered prices, and port costs in one report.
- ✓ **Make Smarter Decisions:** Compare U.S. export prices with global suppliers daily to ensure you’re getting the best deals.
- ✓ **Simplify Benchmarks:** Direct price comparisons between Mont Belvieu and global hubs save time and reduce calculation errors.
- ✓ **Empower Teams:** Provide procurement, trading, and strategy teams with the data needed for quick, informed decisions.

Key Features

- ✓ **Global Price Assessments:** Delivered pricing from Mont Belvieu to 20+ ports, compared to benchmarks like Saudi CP.
- ✓ **Freight Rate Updates:** Daily updates for VLGCs and weekly for MGCs, keeping you ahead of shipping costs.
- ✓ **Panama Canal Insights:** Status updates and costs for critical trade routes.
- ✓ **Market Intelligence:** Facility outages and Asia’s monthly steam cracking survey for market insights.

Who We Help

- ✓ **Chemical Producers:** Compare LPG and naphtha prices side by side to optimize feedstock choices and maximize profitability.
- ✓ **Traders:** Gain daily insights into price movements and freight rates, enabling smarter trading decisions and better arbitrage opportunities.
- ✓ **Procurement Managers:** Evaluate global LPG sources, such as Mont Belvieu and Saudi CP, to secure the best supply contracts.
- ✓ **Exporters:** Understand global market dynamics to position U.S. exports competitively and negotiate better deals with buyers.
